

Appendix B: Laboratory Guideline to Approved In-Office Laboratory Tests

Providers with a CLIA certificate may conduct the following laboratory tests in their offices:

Description	Codes
Drug Screen	80300-terminated 12/31/15
Drug Screen	80305 effective 1/1/2017
Urinalysis	81000-81003
Glucose	82947-82948
Prothrombin time	85610
Thromboplastin time, partial (PTT) Plasma or whole blood	85730
Tuberculosis Intra-Dermal Skin Test	86580
Urine Pregnancy Test	81025
Tissue Exam (KOH) Prep	87220
Wet Mounts	87210
FOBT (Hemocult) by peroxidase activity (e.g. guaiac) feces	82270
Strep Test Group A (Rapid Strep Test)	87070, 87880
CBC	85025-85048
Creatinine; blood	82565
BUN (Blood Urea Nitrogen)	84520
Potassium	84132
Hemoglobin	85018
Rapid Flu Test	87804
Drug Test(s)	G0477-terminated 12/31/2016

The following laboratory tests are approved only if performed by the indicated specialist:

Specialty	Description – CPT code
Family Practitioner/Pediatricians	Bilirubin Direct – Code 82248 Bilirubin Total – Code 82247 Lead Testing- Code 83655 Glycosylated (A1C)-Code 83036 Susceptibility studies, antimicrobial agent; disk method, per plate(12 or fewer agents-code 87184
Oncology/Hematology	ESR – codes 85651, 85097 BM Aspiration – Code 85097 Platelet blood count, manual differential Code 85007 WBC count (includes RBC morphology and platelet estimation) Blood Smear – 85060 Flow cytometry - 88187, 88188, 88189
Reproductive Endocrinologist	Semen Analysis – Code 89300 – 89320 Sperm Evaluation – code 89300 Mucus Penetration Test – Code 89330 (Sperm evaluation, cervical mucus penetration test with or without Spinnbarkeit test) Crystal Identification – Code 89060 Glycosylated (A1C)-Code 83036 Estradiol-Code 82670 Follicle Stimulating Hormone(FSH)- Code 83001 Luteinizing Hormone(LH)-Code 83002 Chorionic Gonadotropin-Code 84702 Assay Progesterone- Code 84144 Assay Prolactin-Code 84146
Urologist	Semen Analysis – Code 89300
Ophthalmologist/Optomist	Immunoassay/InflammaDry-Code 83516 Microfluidic Analysis-Code 83861

Please note that Pathologists and Dermatopathologists may conduct all laboratory tests. CLIA certification is required.
