

Invitation to Medical Oncology Orientation Session

Beginning on October 1, 2021, the 1199SEIU Benefit Funds Medical Oncology Prior Authorization Program will make enhancements to the oncology-based primary treatment regimen requests with the Biosimilar First Program. Providers will be directed to use a biosimilar as a first line for preferred products of trastuzumab, bevacizumab and rituximab. All chemotherapy primary drug products will still require prior authorization through eviCore. Providers will make selections from the product lists and complete a clinical questionnaire to confirm medical necessity. Authorizations are only valid for the specific drug selected and are not interchangeable with other biosimilars. Please note that authorizations will still be obtained through www.eviCore.com, or by calling (888) 910-1199.

In the coming weeks, eviCore healthcare will lead orientation sessions to assist you and your staff with the new use management process. You can attend a web orientation session that works best for you and your schedule.

Registration

All online orientation sessions require advance registration. Each session is free of charge and will last approximately one hour. All sessions are scheduled in Eastern Standard Time.
